

2021

# Impact Report

2019-2020

Universal Outreach Foundation believes that when educational and economic development opportunities are available, people have the resources available to create a vision for their future and achieve it.

In Liberia, West Africa 94% of the population lives on less than \$5.50/day. This makes it incredibly difficult for the average person to have access to life's most basic necessities. We're working to increase the average income in Liberia by offering scholarships, business training, skills training and niche industry development through our education and economic development programs.

# Straight Talk

## *Our Accomplishments in 2021*

- 
- 97 Scholarships Awarded
    - 55 elementary school
    - 20 high school
    - 9 University
    - 13 Trades school
  - 9 students graduate from high school and trades school

  - 100% of the businesses that participated in program were still in operation after 6 months with an average increase in income of \$300/month

# Scholarships **97** awarded

*"I obtained a diploma in plumbing thanks to my UOF scholarship. I can now provide for my family with the plumbing contracts I secure"*

~Dyutee Daniels, trade school student

*"The scholarship gave me relief from financial worries and stopped me from having to drop out of school."*

~Faithjoy Weadatu, high school student

[Meet a scholarship student](#)

# STRIVE **13,539** people use the after school resource centre

Top 3 Programs at Strive, UOF's After School Resource Centre:

- Reading for young learners
- Arts and Crafts
- Vacation School Program

76% of the students improved their reading ability.

*"Now I can sound out my letters"*

~ Victoria Tetteh

# Helping Small

## Small projects with big impacts

### JULIE

**Single mother of 3 is given a secure home**

Julie is a source of strength to everyone in her community. We built Julie a house to ensure she has the security and strength she needs to continue helping others. Now her children have a safe place to call home and her community has a provision shop that reduces their transportation costs of going to the market. Less spent on transportation means more money for food, clothing, and education.

**Impact – Financial stability, community building**

### ALAN

**7 year old boy and brother gain a second home**

Alan is an independent young boy. He has to be because he is often left alone while his parents go out each day in search of work. Alan was often found roaming the neighbourhood alone, but now he and his brother Success now spend their days at Strive, UOF's After School Community Centre, where they receive constant attention and a hot lunch every day. [Meet Alan in this video.](#)

**Impact – Safety, improved health, access to education**

### PRINCESS

**8 year old girl gains freedom after leg surgery**

For years Princess had a debilitating limp due to a broken leg that didn't heal properly. Princess received the medical attention she needed to straighten her knee and make walking more manageable. Now she can comfortably walk to school, haul her own bath water and share a smile with everyone she meets.

**Impact – Increased mobility, independence**

### COMMUNITY LATRINE

**80 people gain access to a shower/toilet facility**

The people in this community had to use the beach as a toilet and take bucket baths behind their tin shelters after dark. A two-room shower/toilet facility was built so the community could have privacy and dignity. The beaches are cleaner as well and the greater community appreciates the change.

**Impact: Improved hygiene, dignity**

### FOOTBALL TEAM

**Team of 24 adolescents receive football equipment**

The Purpose Football team lacked the resources to practice on a regular basis and compete against other teams. The team was equipped with uniforms, cleats, footballs and entrance fees to tournaments. They now hold their heads high and have a healthy activity to put their energy and hearts into.

**Impact – Sportsmanship, belonging, confidence**

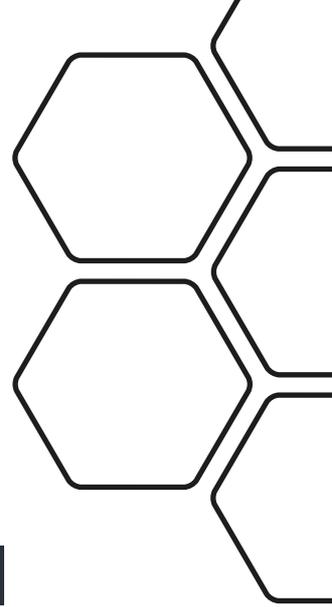

### SURF CLUB

**Youth in fishing community gain economic opportunities through surf tourism**

The youth in Robertsport want a future different from their parents. One where fishing isn't the only way to earn an income. The youth formed an association, acquired a piece of land and now, with the UOF's community's help, infrastructure is being built to support their vision for surf tourism.

**Impact – Economic stability, hope, skill acquisition**

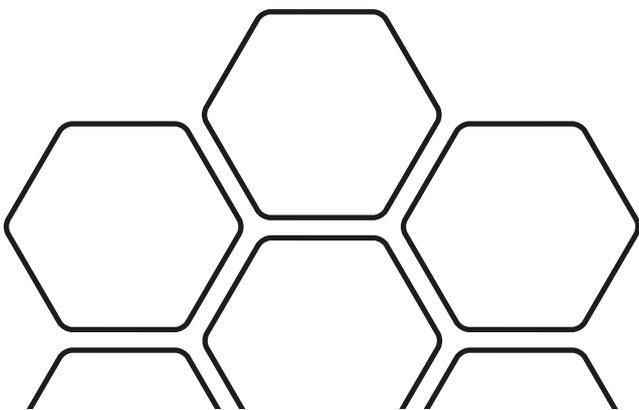

# Adult Skills Training

## Beekeeping

- 191 new beekeepers trained
- 593 people reached with extension services
- 9 new communities engaged in beekeeping
- 1774.5 gallons of honey bought
- \$39,925 CAD put back into the hands of honey producers through the purchasing of their honey.
- 209 Hives distributed
- 13 Honey extractors distributed
- 27 Smokers distributed
- 45 Bee suits distributed

[Read this story on the success of our beekeeping program.](#)

## Coconut Oil

- 615 gallons of coconut oil processed and bought
- \$34,595 CAD put back into the hands of coconut oil producers through the purchasing of their oil.
- 2 New communities trained in the production of coconut oil

[Watch this video on coconut oil production in Liberia](#)

**\$74, 529  
earned by  
participants**

# Entrepreneurship

“Thanks to the direct mentorship I was more confident to utilize some new equipment that improved my product.”

~Levi Martin,  
Jimmy's Chips

“UOF’s Accelerator Program helped me understand how to price my products and set up my business well”.

~ Bedellah Subah,  
Liberty Nut Enterprise
